# 55 Signature Residences And Penthouses With Interiors Designed By Orlando Diaz-Azcuy

At 802' tall, 181 Fremont offers 55 ultra-luxury residences and 6,500 square feet of residential amenities, atop 435,000 square feet of Class A+ commercial space. Residences start at over 500' above the ground, with breathtaking panoramic views from every home, and interiors conceived by internationally-renowned Orlando Diaz-Azcuy Design Associates (ODADA) to create an unparalleled living experience. Twelve accessory suites are also available for purchase by the 55 original owners – for guests, home office, or staff.

The most resilient tall building on the West Coast, featuring the deepest caissons of any residential tower in the city, burrowing nearly 260' below ground, anchored into bedrock. 181 Fremont is also San Francisco's first pre-certified LEED Platinum mixed-use tower. Located in the new center of downtown San Francisco, in the middle of major employers, culture and dining, and next to the new 5.4 acre Salesforce Park and Transit Center, with access to every major transit system in the city.
